ABOUT VITGENIX

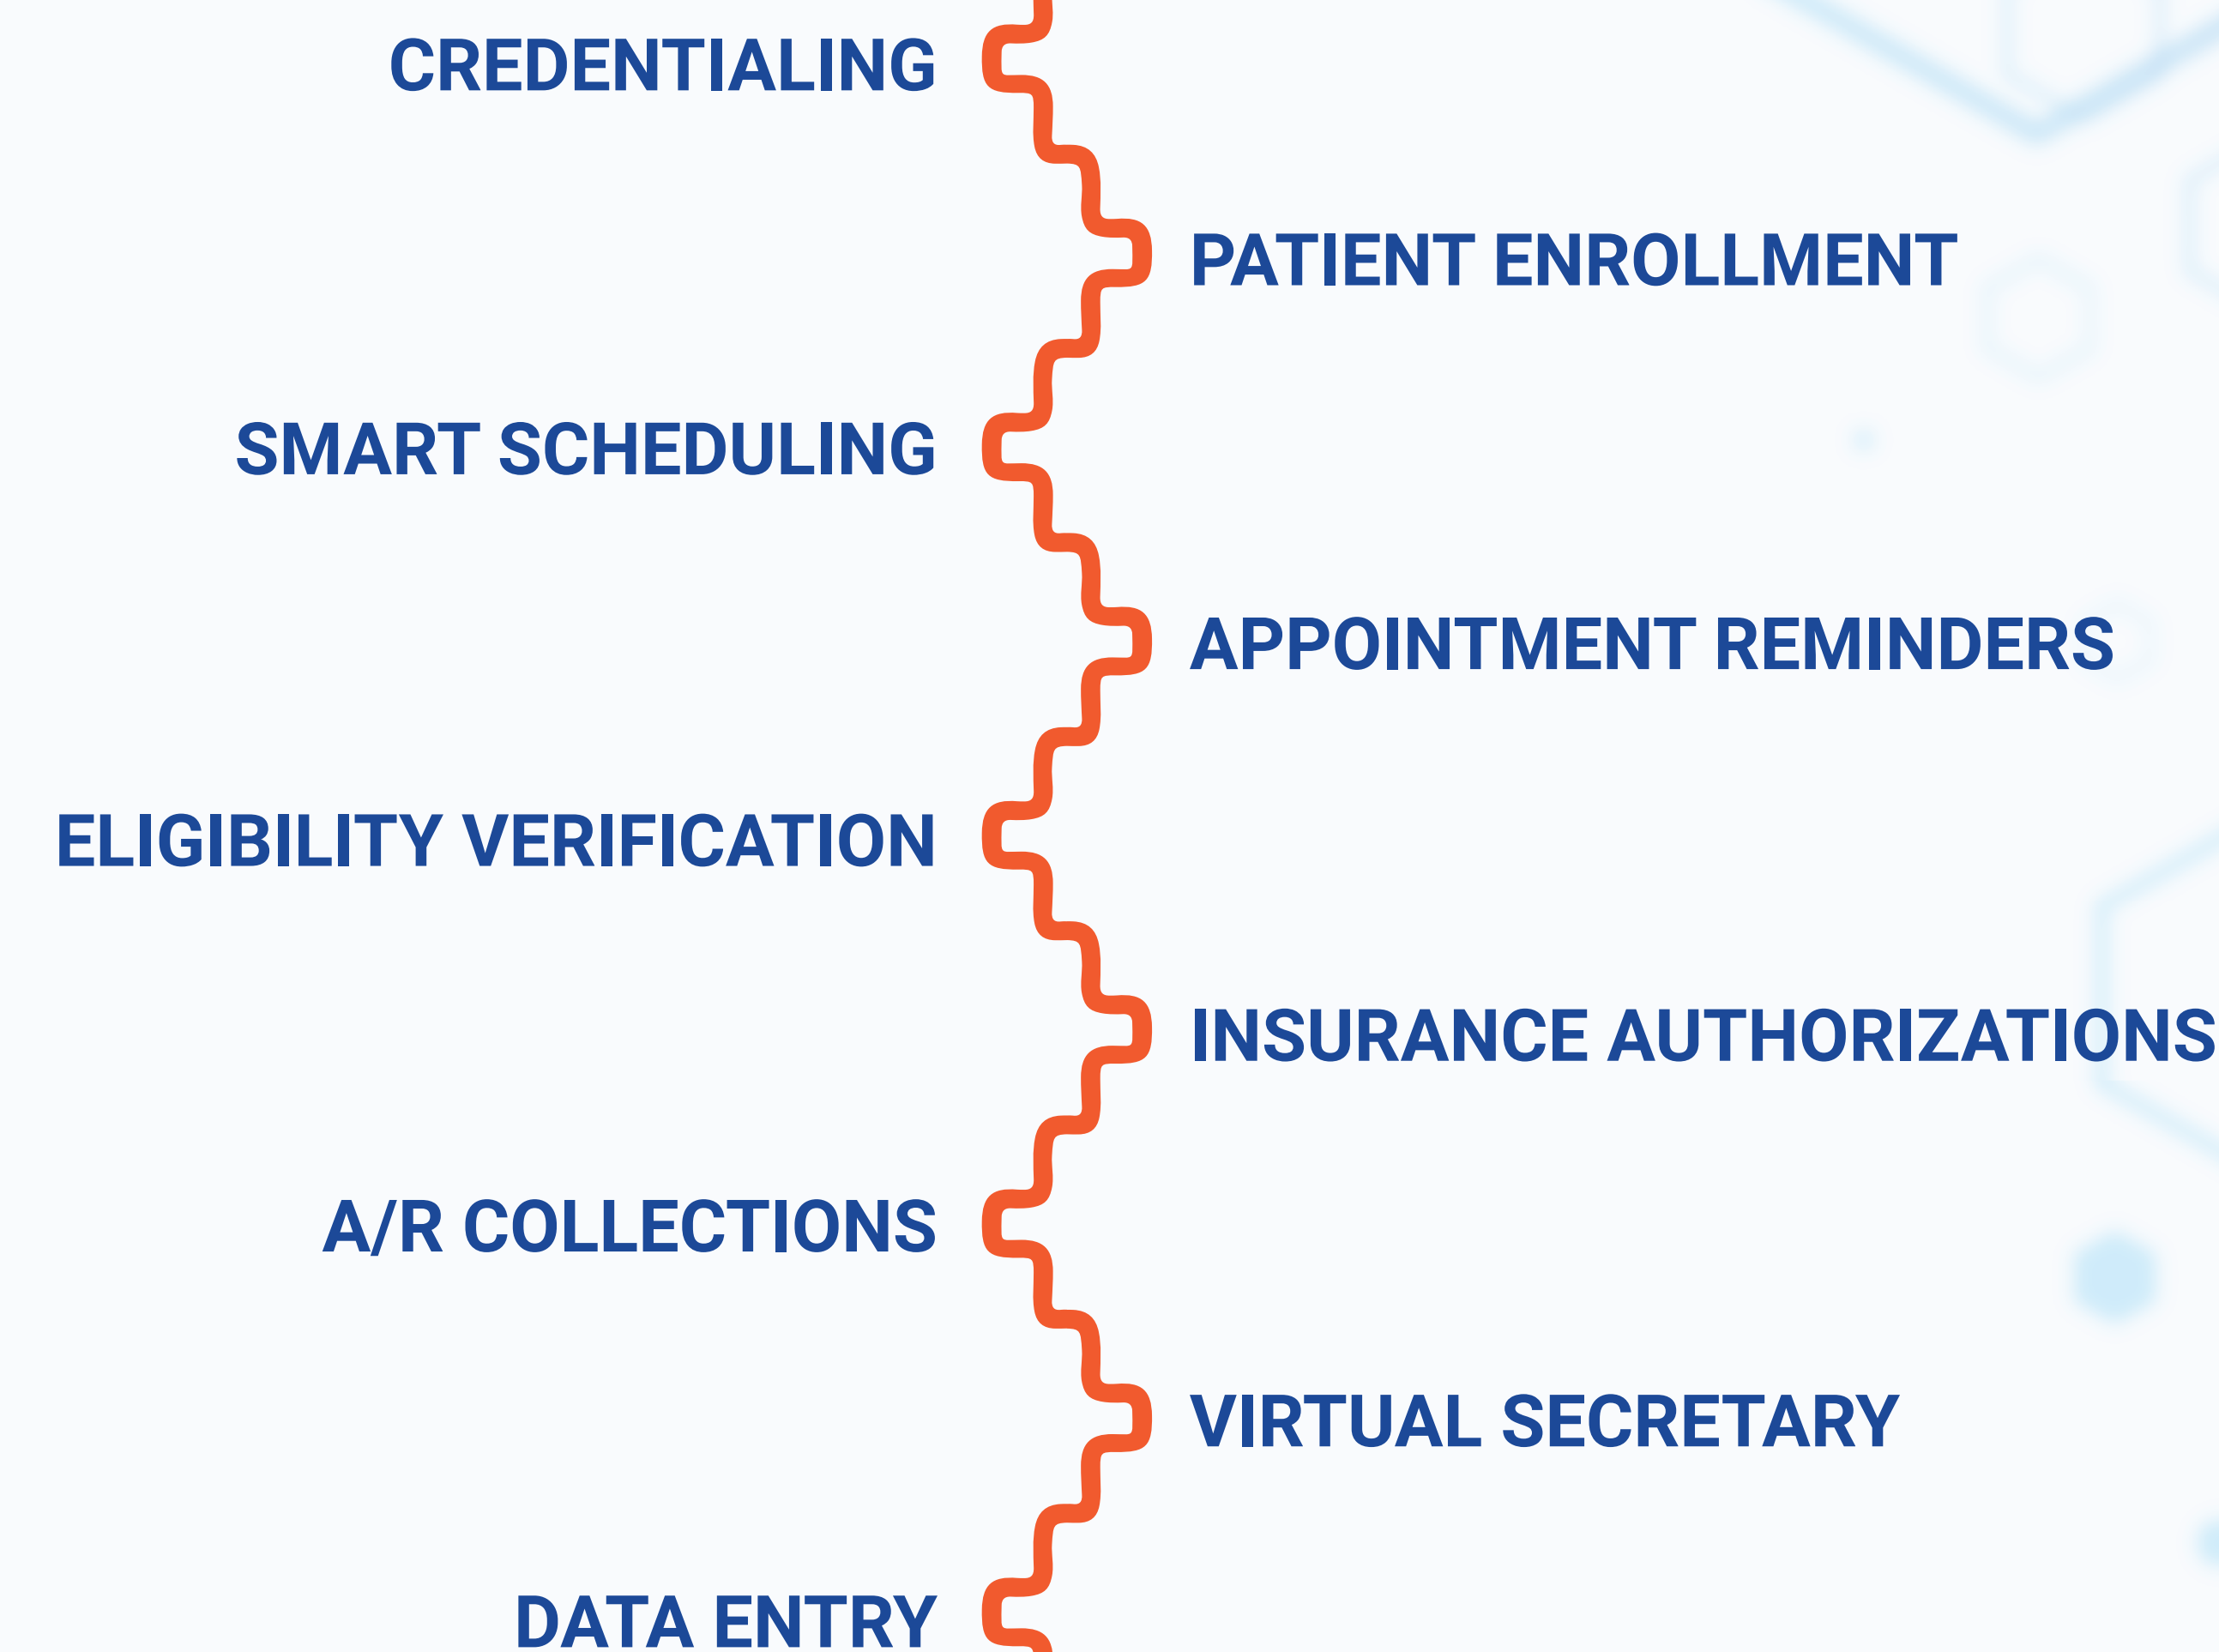

VitGenix is much more than a Billing Service. We are your business partner and we believe that if you do better, so do we. Today's business environment is more complex than ever before, which requires a comprehensive approach to evaluating the practice's operations and measuring its performance on a regular basis. **VitGenix** has the experience and expertise to assist you with your practice management needs.

VitGenix is a team of trained & experienced professionals, who assist physicians in ongoing medical billing services, technology implementation, and the management of their practices, so they can focus on what is paramount: treating their patients.

VitGenix Specializes in strengthening the financial roots of Doctors by applying unique cost effective factors. Our medical billing expertise are not limited to a single Chiropractor or a certain Practice. We have embedded our roots into practices where doctors are not only dealing with patients covered by a private insurance company but also government insurances, Medicare, Medicaid, Blue Cross Blue Shield. United Healthcare can be taken as an example
